

modcon® – MODular CONnectors

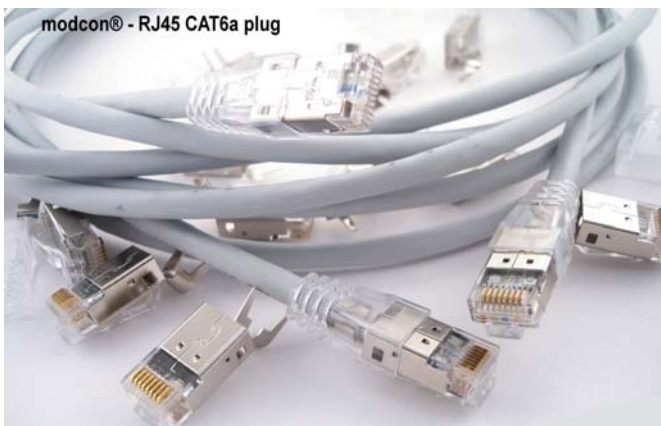

Modular connectors (also named registered jacks {RJ} or western connector [so named because of being a standard created by western electric {AT&T}]) have been a telephone standard in the beginning of modern telephone systems and today it is the standard for telecommunication and networking.

INELCO's has one of the broadest ranges of modular connector's series, which INELCO named **modcon®**.

modcon® - plugs
